

**Could you
contribute to
research into
contraception?**

safety Efficacy
CONTRACEPTION

FEMALE

Drospirenone

Estetrol

Women

If you are a woman aged between 16–50 years old and you require contraception, you may be eligible to participate in the E4 Freedom clinical research study.

This study is evaluating how safe and effective the study pill is at preventing pregnancy, and what periods are like during the menstrual cycle while taking it. Your well-being will be monitored throughout.

To be eligible you must:

- > be a heterosexual active female
- > require contraception for at least a year
- > be a non-smoker (if you are older than 35 years)
- > be in good physical and mental health

By taking part in this study you could make an important contribution to clinical research into contraception.
